**COLLAGEN LIFT™**

## What is Collagen Lift™?

**Collagen Lift™** is a cosmetic procedure that tightens, tones and lifts the skin.

As a non-surgical approach to anti-ageing, there is no risk of a 'frozen' or 'puffed up' appearance.

**Collagen Lift™** stimulates the body's own natural production of collagen and elastin, to reverse the effects of skin ageing. It keeps on working after a course as the new collagen matures and strengthens.

“ I have always been aware of my neck area and sagging jowls, particularly after the menopause. I often wondered what I could do to improve the tightness and elasticity of the skin.

I was researching collagen when I found Andrea who carries out the Collagen Lift™ Facial. I booked a session with her, not expecting to see an immediate effect. How wrong I was! There was a difference, not only with the size of my throat area, but also my skin felt healthier and looked rejuvenated.

The confidence boost that these treatments have given me is amazing. **I feel as though I look younger and healthier, and I'm receiving similar comments from people that I know.**

**Another positive effect is that my wrinkles are not as pronounced.**

I enjoy my time when I'm having the treatment done as well, as I come away from the salon feeling very chilled and relaxed.

Thank you Andrea. ”

**MICRODERMABRASION**

## What is Microdermabrasion?

During **SkinBase™** **Microdermabrasion**, a continuous stream of micro-crystals exfoliate the skin. The crystals buff away old skin, pollution particles, dirt and grime from the surface. A vacuum action works to remove the debris and stimulate blood flow to the treatment area. Microdermabrasion stimulates collagen and elastin production to smooth and renew skin.

“ I visited Claudia at ‘Beautylicious’. I am 51 and I wanted fresher, not so tired and dull looking skin. After speaking with Claudia, I chose the Collagen Face/eyes/neck lift. Claudia advised me on a new facial routine and drinking plenty of water to get the best results from my treatment.

After the first treatment I could already feel and see the difference from the collagen treatment. My skin looked more plump and not so dull. I then continued with the course. After each treatment I could feel and see the difference from the collagen treatment. After the last treatment my skin felt and looked amazing. I will be continuing with treatments monthly to maintain my skin.

Claudia is very knowledgeable offering advice on how to maintain the treatments and get the best from them. She is also very kind, friendly and makes you feel very relaxed and calm throughout the treatment. I have, and would highly recommend visiting Claudia at ‘Beautylicious’.

“ As I advance in my years I've started to look back at old photos and realise how much my face and neck have aged. When my lovely beautician Jeanette at Serenity Beauty told me about the Collagen Lift™ treatment which basically meant I could have a face lift without any surgery or needles then I absolutely jumped at the chance! **It couldn't have been easier, just rock up at Jeanette's fabulous treatment room once a week and relax on her cosy warm bed whilst she works her magic on my face and neck.**

After each visit and treatment I left Serenity Beauty feeling relaxed and was always amazed at how improved my skin felt and looked. I was also more informed about the condition of my skin due to Jeanette's sound advice on how I can improve my skin care routine.

Now that I have completed my course of treatment I am so happy with the results of the skin on my face and neck! **Fine lines are reduced, skin tone is smooth and plump and best of all; my jowls have been lifted!** Thanks as always to Jeanette at Serenity Beauty for making the transformation possible. ”

“ This year I took a look in the mirror and realised I was sad and disappointed in how my face had aged so much in a short space of time. My skin was dull and tired and I looked permanently exhausted. My confidence was at an all time low and I didn't know which way to turn to try and get myself out of the rut and spiral I was in.

I then came across the Collagen Lift™ on Becky's Beauty Facebook page and enquired about the treatment. **I felt this was the right treatment for me as the procedure is on the skin rather than in the skin.**

I have just finished the treatment and I am absolutely blown away with the results. I cannot believe how radiant and fresh my skin looks. **My jaw line and cheek bones are more defined and the lines on my forehead are all but gone.** I feel like the 'old me' again and I have confidence in abundance. *MICRODERMABRASION*

## What are the benefits of Microdermabrasion?

Microdermabrasion is a non-surgical cosmetic procedure that restores younger looking, glowing skin with no downtime. It is painless, quick and convenient - the perfect lunchtime facial to give your skin a boost. A single SkinBase™ treatment can remove up to three times the number of dead skin cells in a single session than other exfoliating treatments.

“ Looking after my skin is something I have always done, and overall felt I had done a good job and didn't look too bad for my age! But age and time does mean things start to move south! I had been having the SkinBase™ Microdermabrasion for a few years and certainly felt it helped, but when the team at Bronzed Inc told me about a new Collagen Lift™ treatment from SkinBase™ they would be offering, I was very interested.

**I have to say even after the first treatment I could see a real difference in my skin and the tone of my face. I continued with the treatment once a week for 6 weeks and can honestly say I'm blown away and amazed with the results.** The shape of my face has changed, my jawline is more defined, my cheeks are lifted, and my skin is smooth, soft and glows and feels so soft like it did when I was a lot younger! My makeup goes on so well and lasts better...I don't even mind going bare faced these days, something I never did before, as I felt my skin looked tired and dull without makeup.

I'm so happy with the results it has made so much difference to how I feel about myself and has been a great confidence boost. ”

“ My 50 something years old skin was looking very tired, lined, with enlarged pores and dry patches, so last year my beauty salon advised me to try a course of SkinBase™ Microdermabrasion. Wow I could see an improvement just after one treatment! My therapist Jodie explained every treatment and I also started using the SkinBase™ SPF moisturiser which my skin loves.

**I have just completed a course of the Collagen Lift™, and again the results are fantastic, crows feet and frown lines much softer and finer, pores reduced and definitely improved those jowls!** After that course I have had 3 top up treatments of Microdermabrasion with the Collagen Lift™ and will continue to top up as advised.

Both treatments are painless, the warming effects of the Collagen Lift™ are actually very relaxing and I have had lots of compliments about my skin, someone did even wonder if I had a face lift! I can highly recommend! ”

“ I'd been a long-term sufferer of extremely dry feet and cracked heels. Often my cracked heels bled, causing me to limp. I'd tried medical treatments prescribed by doctors and across the counter and all the well-known brands to treat cracked heels but to no avail.

However, upon an initial discussion with Ruth, I went along to my first session. Ruth was polite, kind and patient, especially as I was sceptical of the treatment at first and suffered from ticklish feet. I was nothing short of amazed when she showed me how much dry skin was removed after my first session of treatment, which lasted an hour and a half.

When I look back at the first photo, my feet look like they belong to someone else. They are no longer cracked or dry. It has also completely restored my confidence in wearing sandals and enjoying swimming again. **The Microdermabrasion foot treatment has been monumental in restoring my feet to being smooth and pain-free.**

So, my thoughts on the treatment, I noticed a significant change in the third week. Some fine lines had completely disappeared, and the deeper wrinkles, of which there are many, were less noticeable. One of the biggest changes, however, was after the fifth session, I noticed that the little red blemishes on my skin had completely disappeared. These have been there for about 15 years!

I can not recommend this treatment highly enough and will be continuing with my once a month top-up session. My neck and jawline look so contoured I look like a different person. This treatment is my new botox. ”

## What are the benefits of Collagen Lift™ Ultimate?

**Collagen Lift™ ULTIMATE** is an extremely effective, non-surgical cosmetic treatment that provides longer lasting, glowing skin. Performing the SkinBase™ Microdermabrasion and Collagen Lift™ in the same session will maximise client results and promote a faster healing response for the skin. As the SkinBase™ treatments work together during a course of Collagen Lift™ ULTIMATE, effective results are achieved sooner than if committing to two separate courses of treatment.

“ All my friends were getting botox which I can't have for medical reasons. I wanted a solution for hooded eyes, saggy jowls and skin that was sullen and dark. I took the plunge on a course of 6 Collagen Lift™ facials.

It coincided with illness and I was really unwell. Seeing Becky every week for this treatment was amazing. It's warm and relaxing, and is just wonderful, and really helped me get better. I have been having monthly treatments for a year and the results just keep getting better.

**My eyes are not hooded, jowls have gone and my fine lines and big scar have pumped away! But the results are so natural!** I work on screen all day, and hardly ever wear makeup other than eye make up and I get so many compliments on how plump and flawless my skin is. It's a real confidence boost to have great skin as I approach 46! It was an investment in my face, and I'm really glad I did it. ”

*INTENSE PULSED LIGHT*

## What are the benefits of Intense Pulsed Light?

IPL photorejuvenation, sometimes known as 'photo facial', is a light based therapy that works by targeting structures within the skin such as melanin, blood, and water in collagen with wavelengths of light to break down the structure and improve the appearance of skin.

The light pulses also stimulate collagen production which floods to the area, plumping the skin and reducing wrinkles and resulting in a more youthful appearance. The treatment is also effective for sun damaged skin too.

As the treatments are both non-surgical and non-invasive you can see substantial results with no downtime. You can return to work straight away.

“Wow! I really can't believe the effects of IPL treatment. I've been a client of Sophie at the Beauty Room Kettering since 2008 when I first visited prior to my wedding.

Having known Sophie for the duration of my married life I know how meticulous she is regarding her treatments and products and that she would not promote anything that she hasn't tried and tested herself and truly believed in. From the outset, as a loyal and honest customer I was keen to support Sophie's new venture, having heard about her confidence in IPL I knew it was worth a go! Sophie had tested IPL on herself and catalogued the results with a great outcome. I was keen to try it myself.

For many weeks post treatments I continued with my shaving routine, until I realised that I was shaving my bald skin! **I genuinely can't believe the results, no shaving required! I just wish that I was braver and didn't start with my underarms and went straight for my legs! That's next on the list.** ”

*INTENSE PULSED LIGHT*

## Intense Pulsed Light - who is it for?

The SkinBase IPL can be used for a wide range of treatments making it an option for all skin types of all ages. Pigmentation, unwanted hair, thread veins, acne or improving general skin tone and fine lines, are just a few of the treatments available with the SkinBase IPL.

Some less advanced IPL systems can only be used on a limited amount of skin types but The SkinBase IPL has been clinically proven to work on almost all skin types except very dark skin.

Unlike other IPL systems the SkinBase IPL system allows the practitioner to fine tune the settings to suit specific skin and hair combinations and obtain the best results possible.

*MICRODERMABRASION*

## Microdermabrasion - who is it for?

**SkinBase™ Microdermabrasion** is suitable for all skin types and tones. Those aged in their late 20s and up will benefit the most from Microdermabrasion for signs of ageing (remember - **prevention is better than a cure!**) However, Microdermabrasion can treat problematic skin, such as acne and pigmentation, for all age groups.

“ At the age of 53 I was becoming ever more aware of the way my skin was changing and some areas were particularly concerning me - I had some patches of pigmentation caused primarily from sun damage and also a few more fine lines and wrinkles seemed to be generally appearing.

So when Hayley at Vanilla Beauty told me about a new course of Collagen Lift™ and infra-red mask treatments she was now offering I was instantly interested to find out more. The key aspect about the treatment that appealed to me was that it was non-invasive.

I have just completed my course of six sessions and I have to say that I thoroughly enjoyed each one. **Right from the very first treatment, the visual results were impressive. Week on week after each session, my skin became increasingly rejuvenated and my complexion visibly brightened more and more!**

I cannot recommend this treatment highly enough. I'm incredibly impressed and thrilled with the results and so pleased I have had it done. ”

I had heard of the treatment and searched online for my nearest clinic, after the first treatment I could see a difference. My pores weren't as dark. After each session my skin felt alive and tingling. The treatment is completely painless whilst removing the top dead skin cells.

**I now feel much happier because my skin has a glow and looks brighter, the wrinkles have gone and the dark age spots have faded.**

I am going to continue with the microdermabrasion treatments once every three to four weeks to keep my skin looking good and I feel great!

Thank you! ”

“ I have had pigmentation/sun damage on my face for many years. The marks have become larger and more prominent over the years and this resulted in lower self confidence with me always wearing foundation to try and cover it.

Then a couple of months ago Emily spoke to me about a new treatment she was starting to offer - Microdermabrasion. As it could go down my neck and help the pigmentation not only on my jawline but also around my neck, I was in. No questions asked. After the first session I was utterly astonished.

**I've had 7 sessions to date and the result is just amazing. I'm so much more confident and comfortable in my skin. Not only have my 'problem' areas nearly gone but my skin also looks and feels amazing. I even now barely wear foundation.**

Thanks Emily and thanks to whoever created this treatment. You've made me extremely happy. ”

“ At the beginning of the year I really struggled with acne, it was the worst I have ever had, even as a teen I never had it that bad. I was going through a lot of stress at the time so I assume that's what was causing this.

After speaking with Laura she recommended the Microdermabrasion facial. **I am absolutely speechless at how well this facial worked, not only did it help clear my acne but it helped remove most of the scarring, my skin is nowhere near as textured and I didn't have those little bumps all over my face.**

I also noticed I seemed to have less blackheads and clogged pores and my skin in general just felt healthy and had a great glow! I was so happy and I don't think you really realise how something like this can affect someone and boost their mental state.

I am so grateful and I recommend this treatment to anyone with a similar situation who is struggling with their skin. ”

Verity talked me through what the treatment would entail, how often it was needed and what results I could expect at the end of the course.

**I went on holiday and wore my bikini with pride knowing that as a result of this treatment I not only felt but also looked amazing, my tummy area was smoother, flatter with less noticeable stretch marks, which 26 years after having my children I didn't think was going to be possible.**

I trust Verity totally with all of my skin care needs, not only is she professional and knowledgeable but so warm and friendly, the time passes so quickly as we are always chatting, I would 100% recommend Verity to anyone. ”
