**COLLAGEN LIFT™**

## What is Collagen Lift™?

Collagen Lift™ is a cosmetic procedure that **tightens, tones and lifts the skin.**

As a non-surgical approach to anti-ageing, there is no risk of a 'frozen' or 'puffed up' appearance.

Collagen Lift™ stimulates the body's own natural production of collagen and elastin, to reverse the effects of skin ageing. **It keeps on working after a course** as the new collagen matures and strengthens.

“ Last year I had a blood test and a bit of a shock - I was diagnosed with pre-diabetes. I didn't take sugar in my tea and was careful to avoid sweets! My doctor suggested that I follow the online NHS programme to improve my diet and lose some weight. I certainly lost weight but so did my face!

Luckily, Just Beauty Cromer had recently added a new type of treatment to their facials. I was hopeful these new facials might help improve my rather gaunt appearance after the diet - so I signed up for the recommended course of Collagen Lift facials.

Right from the start this facial was a very different experience! When I got home I **noticed a glow to my skin**. By the time I was half way through the course my dry skin condition had softened and I **felt a firmer texture around my neck and jawline**.

After the last facial treatment **my skin had improved by more than I ever imagined it could**. The lines on my face had lessened and my cheeks seemed to be filling out. I have been delighted with the results of the Collagen Lift Facial Course. Thanks to Just Beauty! ”

My skin looked **fresher, brighter, my scarring had reduced, and was so much clearer of breakouts**. Not only externally did we see huge improvements, I really felt the internal benefits too.

I actually left the house without makeup and **my confidence with my skin has massively improved** all thanks to Jacqui and the Microdermabrasion treatments! ”

Jess, Microdermabrasion client

MICRODERMABRASION

## What is Microdermabrasion?

During SkinBase™

**Microdermabrasion**, a continuous stream of micro-crystals exfoliate the skin. The crystals buff away old skin, pollution particles, dirt and grime from the surface. A vacuum action works to remove the debris and stimulate blood flow to the treatment area. Microdermabrasion stimulates collagen and elastin production to smooth and renew skin.

INTENSE PULSED LIGHT

## Intense Pulsed Light for unwanted hair

IPL is well known as a treatment to get rid of unwanted hair and it does this by targeting the hair follicle to disable it. Pulses of light travel into the follicle where it heats up and disables the follicle.

It's an increasingly popular treatment due to its effectiveness and long-term results. **Say goodbye to unwanted hair!**

The pre cleanse is refreshing and relaxing and the treatment itself is warming and stimulating and leaves my skin with a lovely sensation. I booked 2 courses (each of 3 treatments totalling 6) and thereafter I have top-ups every 4/5 weeks. I can't tell you how much I look forward to them!

**Post treatment I have a lovely rosy glow and my skin feels super soft.** My sister and daughters, who were not aware of the type of facial I was having, have all said to me “have you had something done to your face ... you look really peachy and less lined.”

I feel that the results have been very beneficial and **I feel much more confident, especially without makeup** and will continue to have my top-ups for the foreseeable future. ”

## What are the benefits of IPL for acne

IPL acne treatment has multiple benefits for the skin. Light pulses are used to treat the skin. The yellow and green lights kill acne-causing bacteria, reducing inflammation and preventing new breakouts. The red light targets overactive sebaceous glands to unclog pores and reduce pustules while also boosting collagen production to improve the appearance of acne scars.

## What are the benefits of Intense Pulsed Light for unwanted hair?

IPL offers a long-term solution to excess and unwanted hair. IPL will help prevent ingrown hairs and causes less irritation than shaving or waxing. Any regrowth you do experience during a course will generally be much finer and softer, reducing the likelihood of ingrown hairs.

With SkinBase IPL, the use of a cryo-handset to cool the skin ensures a treatment experience that is comfortable and virtually pain-free!

“ I have tried everything by way of products and have not been able to get my skin under control from regular and fungal acne. Rachel suggested that we give MD a try and I'm glad that we did. My skin is almost clear, softer, the horny upper layer is gone, it's got a lot more moisture and my product use is far simplified. **I can go make-up free now with confidence** and I don't have to conceal lumps and bumps. I cannot believe it has worked so well. ”

“ I have completed a course of 8 CL Facials with Belinda and I cannot praise the treatment, Belinda, and the results enough. Having been through a really difficult personal time I was feeling old, worn out and my self esteem was rock bottom.

I wanted something to freshen my complexion and to lift my eyes and jowls that wasn't invasive. Belinda went through everything and I decided to go for it. She was very thorough in telling me exactly what would happen and ensuring I was suitable, including checking my regular medication.

After 3 treatments I could see I didn't look as tired and at the end of the course **I was absolutely delighted with the results.** My skin and definition has improved massively, I definitely look younger and fresher which has **helped my confidence no end.** I would highly recommend Belinda and the Collagen Lift. **I will be continuing with monthly maintenance.** ”

CL ULTIMATE

## What are the benefits of Collagen Lift™ Ultimate?

**Collagen Lift™ ULTIMATE** is an extremely effective, non-surgical cosmetic treatment that provides long lasting, glowing skin. Performing the SkinBase™ Microdermabrasion and Collagen Lift™ in the same session will maximise client results and promote a faster healing response for the skin. As the SkinBase™ treatments work together during a course of Collagen Lift™ ULTIMATE, effective results are achieved sooner than if committing to two separate courses of treatment.

*INTENSE PULSED LIGHT*

## Intense Pulsed Light - who is it for?

The SkinBase IPL can be used for a wide range of treatments making it an option for all skin types of all ages. Pigmentation, unwanted hair, thread veins, acne or improving general skin tone and fine lines, are just a few of the treatment options available with SkinBase IPL.

Some less advanced IPL systems can only be used on a limited amount of skin types but SkinBase IPL has been clinically proven to work on almost all skin types except very dark skin.

Unlike other IPL systems the SkinBase IPL system allows the practitioner to fine tune the settings to suit specific skin and hair combinations and obtain the best results possible.

HYDRO

## Hydro - who is it for?

Hydro is a luxurious treatment ideal for anyone looking to achieve healthy skin non-surgically. The range of serums available allows greater flexibility, as **the treatment can be preventative or remedial depending on your skin concerns**. The SkinBase Hydro treatment can be used for all skin types on all areas of the face and body. The treatment is perfect for congested, acne prone skin, dry, dehydrated or dull skin, ageing skin, and sensitive skin.

*MICRODERMABRASION*

## Microdermabrasion - who is it for?

**SkinBase™ Microdermabrasion** is suitable for all skin types and tones. Those aged in their late 20s and up will benefit the most from Microdermabrasion for signs of ageing (remember - **prevention is better than a cure!**) However, Microdermabrasion can treat problematic skin, such as acne and pigmentation, for all age groups.

“ Before speaking with Dan, I had no prior experience of Microdermabrasion. I was unsure what it entailed and if it would be the right fit for my skin. Dan talked me through the whole process and explained in detail what the treatment is and how it is performed.

Upon visiting for a patch test prior to the treatment, Dan took the time to show me the machine and explain again how it works. I was hoping the treatment would reduce my pores and **help my skin to stay looking young.**

After the first treatment my skin instantly felt fresher. Over the first few treatments **I didn't really notice much change myself, but I had a lot of people mention how good my skin was looking.** After my 6th treatment, I could definitely tell a difference when looking back at pictures from before. My skin not only looked brighter and fresher, my pores have significantly decreased in size and my frown lines have definitely become more shallow. I'm really glad I found Dan and will continue getting treatments with him from now on to keep up the good work the course of microdermabrasion has done! ”

“ This competition entry is a little bit different to **show the long term results of having Collagen Lift and Microdermabrasion treatments.**

My client has been coming to me for 5 years. She usually books either a Collagen Lift or Microdermabrasion treatment, sometimes a Collagen Lift ULTIMATE treatment. Jana has a combination of top up sessions.

Sometimes a monthly maintenance session is booked. When Jana leaves a gap of 2-3 months, she usually books in for a course of 2-4 treatments. She has just had a course of 3 collagen lifts and a microdermabrasion.

My client is 46 and actually looks younger than when she came for her first visit 5 years ago - **it's so good to see how keeping on top of maintenance sessions with SkinBase treatments how incredible clients can look.** ”
